

## Annual Steak-out

Gale warnings and strong north winds may have kept the boats away, but not the people. For the second time in nine years, the event was held inside the garage. The absence of a water view did not take away from the genuine camaraderie of the forty seven registrants and the deliciousness of the food.

The quality of the steaks and the service from our vendor was outstanding. There was a good selection of appetizers, sides, salads, and desserts prepared by the attendees.

We would like to thank everyone for their contributions in making this a successful event.
